

I am opposed to the proposed changes to SB 1105. I believe that the proposed changes will in the long run be detrimental to children with ASD. Allowing professionals with training in related by not specific ABA training and certification will only lead to negative impact on these children. These changes will allow non ABA training administrators to direct non ABA trained and certified "including, but not limited to, persons employed as psychologists, speech therapists and positions requiring certification pursuant to section 10-145b with an endorsement in special education"

Sincerely,

Donald Jensen
